

ISAAC BOATENG

+233202872508, +233246935965 | ioblld3@gmail.com | Kumasi, Ashanti, Ghana

SKILLS

Solidity, JavaScript, Web3, Truffle, Smart Contracts, Web development, Android, Kotlin

PROJECTS

[Private Blockchain](#)

- Configured how each block stores data, validate blocks, and add new blocks to the chain, with methods to validate the chain integrity.

[Decentralized Application for Tracking Items through Supply Chain](#)

- Built a supply chain system on Ethereum blockchain that allows users to verify the authenticity of an item as it passes through different hands.

[Decentralized property listing application](#)

- Mint tokens to represent claims to the property, then made the tokens available for sale on blockchain marketplace(OpenSea).

EXPERIENCE

Sep.2018 - Sep.2019

Web Developer, IzacWebsolutions

- Designed websites, using scripting languages, content creation tools, management tools, and digital media.

Feb.2020 -

Freelance Software Developer

- Created Android Mobile Applications as Project work for Undergraduates
- Designed websites, using scripting languages, content creation tools, management tools, and digital media for local clients.
- Write applications that use data stored on the blockchain.
- Creates ERC 721 & 20 Tokens for clients.

EDUCATION

Sep.2018 - Feb.2020 | Computer Science, Ghana, University for Development Studies

- RELEVANT COURSEWORK: Tutor Web Application.

Nov.2021 - Feb.2022 | [Blockchain Specialization, Coursera](#) | [University At Buffalo and The State University of New York](#)

Feb.2022 - Mar.2022 | [Blockchain Developer Nanodegree, Udacity](#)

April 2022 | [Decentralized Finance Specialization, Coursera](#) | [Duke University](#)
